Indoor / Outdoor

Enclosures & AV Mounts

Smart Solutions for a Digital World

Welcome to Cletech, where cutting-edge technology meets tailor-made solutions in indoor and outdoor digital signage. Since 1994, we've been designing and manufacturing high-quality enclosures and systems, delivering innovative solutions to both end-users and integrators worldwide.

Proudly manufactured in Manisa, Turkey, one of the nation's key industrial zones, Cletech is a registered trademark of HIRAŞ LTD. and has become a trusted name in the global signage industry.

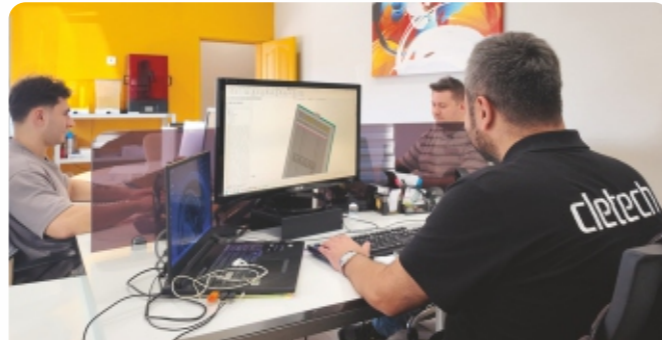

What We Do?

We offer:

- Custom-designed digital signage enclosures
- Smart city and payment system kiosks
- Indoor & outdoor totems
- Fully integrated electronic signage systems

Every product we create is engineered for functionality, durability, and style — designed to meet the demands of today and tomorrow.

Tailor-Made Solutions for Your Projects

In addition to our standard product line, we specialize in custom designs:

- Unique product geometries and material selections
- Special color and branding options
- Custom electronic integration
- Project-specific enclosures

Have a unique idea? Let's design it together — from concept to prototype, and into full-scale production.

Our Development Process

Every project is handled with care, creativity, and precision:

- Research & Development
- 3D Industrial Design Visualization
- Mechanical Design & Engineering
- Prototype Production & Testing
- Mass Production

Each step is executed in-house, with full control over quality and efficiency.

Global Vision, Local Precision

With exports to 40+ countries, we've proven our capacity on a global scale. We work exclusively with internationally recognized brands to ensure compatibility and performance.

Located in Manisa, our facility offers easy access to supply chains, logistics, and support for global projects.

Full In-House Production – End-to-End Quality

We carry out all stages of production in our own facility:

- Metal Processing – Precision cutting of steel and aluminum using advanced laser and router machines.
- Forming & Welding – Shaping and assembling with expert craftsmanship.
- Powder Coating – A flawless finish applied in our in-house dyehouse.
- Mechanical & Electronic Assembly – Final integration of components with rigorous checks.
- Quality Control & Packaging – Every piece inspected, tested, and packed for safe delivery.

Our factory's integrated production lines ensure speed, consistency, and top-tier quality in every product.

Looking for innovative, reliable, and customizable digital signage solutions?

Contact us today and discover how Cletech can bring your next project to life — with technology, creativity, and confidence.
